DETAILED ACTION

Specification

The amendment filed 07/28/2010 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: In the Specification, page 4 line 9, "A contact list is a list" being introduced as a new matter which has changed the scope of the disclosure.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claimed language of "a contact list of second wireless devices with which the first wireless device has communicated in the past" was introduced in independent claims 1 and 11 and the equivalent claim language "that the system has communicated with before" was introduced in independent claim 21 in the

amendment filed May 12, 2005. There is no support for this limitation in the Application as originally filed. The Specification only states: "Each device includes a contact list. A contact list may be a list of individuals with whom the device has communicated in the past " (See Specification, page 4 lines 9-11 and page 5 lines 6-9). The Specification does not state that the contact list "must" be a list of individuals with whom the "first wireless device" has communicated with in the past. Thus, there is no supporting disclosure for the limitations added by amendment.

Allowable Subject Matter

1. Claims 1-30 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art to the claimed subject matters is Haartsen (6,590,928). Haartsen discloses limitations recited in independent claims 1, 11 and 21 except the contact list is a list of individuals with whom the first wireless device has communicated with in the past.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
